At Hope, our community's support fuels a powerful ripple effect, allowing students like Cierra to graduate, secure dream internships, and learn directly from the Hope alumni who came before them.

"My supervisor, Bri [a Hope grad herself], has been an amazing teacher and so patient with me. I'm getting stronger and learning how to use my body efficiently, with great tips from my supervisor, who's about my size and knows how to handle tasks differently than the guys do."
